EDUCATION

B.Sc in Computer Science & Engineering

December 2015

Islamic University of Technology (IUT)

Result: Cgpa 3.55 (out of 4.0)

Thesis: "Privacy-Preserving Channel Access for Multi-domain Internet of Things(IoT)"

Supervisor: Professor Dr. Mahbub Alam

RESEARCH Interest

- Cyber-physical system, Internet of Things(IoT), Data Security and privacy, Data mining, Natural Language Processing.

Work Experience (5 years 3 months)

Software Engineer (Remote) – iOS & Android

Nov 2017 - Aug 2021

Korbyt (<https://www.korbyt.com/>)

- A digital signage company headquartered in Texas.
- Worked on KorbytGO – an employee communication-based app.
- Worked on NVIDIA Shield Android for Korbyt's Embedded Android Player.
- Worked on digital signage software for web and mobile platforms.

Mobile Application Developer

2016-2017

Chalo Technologies Ltd (<https://cholo.xyz/>)

- Launched one of the first On-demand car service app in Bangladesh.
- Develop and Maintain Mobile applications according to the Client's requirements.

Internship

2016-2016

Empire Group (<https://empiregroup.com.bd/>)

- Worked on a Bike ride-sharing mobile application.

Technology Stack

(Proficient): Java, Kotlin, SQL (Familiar): Swift, JavaScript, React-Native, Flutter

Professional Projects

KorbytGo

KorbytGo is an internal communications application.

- It is a custom app for Digital Workplace Employee Engagement (App is sold using custom distribution to a tenant-based model)
- Deliver alerts, announcements, and tips to improve user well-being and awareness.
- Deliver surveys and quizzes, polls for the purposes of measuring satisfaction, evaluating competence, or adding gamification to enhance user engagement.
- Provide on-the-go access to critical business information that keeps users constantly informed with real-time data.
