## EDUCATION

### B.Sc in Computer Science & Engineering

December 2015

Islamic University of Technology (IUT)

Result: Cgpa 3.55 (out of 4.0)

Thesis: "Privacy-Preserving Channel Access for Multi-domain Internet of Things(IoT)"

Supervisor: Professor Dr. Mahbub Alam

## RESEARCH Interest

- Cyber-physical system, Internet of Things(IoT), Data Security and privacy, Data mining, Natural Language Processing.

## Work Experience (5 years 6 months)

### Software Engineer – Android & iOS

Nov 2017 -

Raptas Software Inc (<http://www.raptasoft.com/>)

- Working for US Client Korbyt(<https://www.korbyt.com>), a digital signage company headquartered in Texas.
- Worked on KorbytGO – an employee communication-based app.
- Worked on NVIDIA Shield Android for Korbyt's Embedded Android Player.

### Mobile Application Developer

2016-2017

Chalo Technologies Ltd (<http://cholo.xyz/>)

- Launched one of the first On-demand car service app in Bangladesh.
- Develop and Maintain Mobile applications according to the Client's requirements.

### Internship

2016-2016

Empire Group (<https://empiregroup.com.bd/>)

- Worked on a Bike ride-sharing mobile application.

## Technology Stack

(Proficient): Java, Kotlin, SQL (Familiar): Flutter, Swift, JavaScript, C++

## Professional Projects

### KorbytGo

KorbytGo is an internal communications application.

- It is a custom app for Digital Workplace Employee Engagement (App is sold using custom distribution to a tenant-based model)
- Deliver alerts, announcements, and tips to improve user well-being and awareness.
- Deliver surveys and quizzes, polls for the purposes of measuring satisfaction, evaluating competence, or adding gamification to enhance user engagement.
- Provide on-the-go access to critical business information that keeps users constantly informed with real-time data.
